```
x <- 1:50  
#change plot type change from dot plot to line graph  
plot(x,sin(x),type="l")
```

```
#change color to blue  
plot(x,sin(x),type="l",col="blue")
```

```
# change line width  
plot(x,sin(x),type="l",col="blue",lwd=3)
```

```
#change amount of point plot not changing the size  
x <-seq(1,50,by=0.1)  
#use seq function with step size to get a more smooth plot  
plot(x,sin(x),type="l",col="blue",lwd=3)
```
